Welcome to the **5th edition of the annual Global Tank Storage Awards**. The award is the number one accolade the industry wants to win.

For 2022, we have listened to our community and evolved the awards to include **gold, silver** and **bronze winners**. Plus, the introduction of an **awards league** to rank of the world's most successful entrants as well as acknowledging the best in the industry.

It is time to get involved and show the world your work!

Stay safe, excellent & innovative.

Good luck,

Awards Team

# Entry specifications.

Our highly esteemed judges are passionate about recognising global excellence in the tank storage market and they need your help to understand why your work deserves to win. Give your company /technology the best chance of winning a coveted award by preparing your entries correctly. Please provide up to 800 words describing why your company/technology is eligible to win the award.

## Eligibility

Any technology, terminal or individual related to the bulk liquid storage market is eligible to enter the Global Tank Storage Awards.

## Summary

Provide a 100 word summary of your entry which will be published in the award guide.

## Visuals

Provide one or two images with your entry in .jpg or .png format no larger than 40MB.

## Videos

You can include a video entry via YouTube or Vimeo URL - videos are encouraged. All shortlisted videos will be widely promoted as part of the awards social media campaign.

# Technology.

## **Terminal optimisation**

This award goes to the software, service, or model that succeeds in optimising, streamlining, or improving the storage terminal.

## **Environmental performance**

This award goes to the product or technology that serves to protect the environment and/or reduce emissions at the terminal.

## **Safety technology**

This product or technology adds an additional layer of safety to the terminal and reduces risk to employees and the surrounding area.

## **Innovative technology**

The winner of this award will go to a technology/product or service that is revolutionising the tank terminal industry.

## **Emerging technology**

The emerging technology award is given to a cutting-edge technology that allows forward-thinking storage terminals to keep pace with a rapidly changing working environment.

# Terminal & port.

## **Port of the future**

This award goes to the port or technology that is preparing for the future, taking into consideration the energy transition and digitilisation, as well as improving overall port customer service & efficiency.

## **Safety excellence**

The winner of this award will be able to demonstrate an impeccable safety record – specifically when it comes to lost time injuries as well as recording near-miss incidents.

## **Sustainable impact**

This terminal is demonstrating its dedication to preparing for the energy transition via research & investment, as well as implementing ongoing energy efficient measures at the terminal. This award will be voted on by the industry.

## **Terminal efficiency**

The winner of this category will be the terminal that boasts the most effective operations, provides the best customer service and uses the latest innovations.

# Individual.

## **Rising star award**

This award goes to the person who is already paramount to the success of their company and who has the potential to become a key contributor to the future development of the tank storage industry.

## **Outstanding achievement award**

This award goes to an individual who has gone above and beyond to ensure the success of a company.

# Judging criteria.

Judges will read and score all entries out of 100 taking into consideration all written and video materials submitted.

All judges scores will then be combined and the highest scoring entries will determine the winner for each category.

For the terminal awards the scores will be jointly decided by the judging panel and the wider terminal industry. Entries will be voted on, and the results of the votes will be added to the judges scores to decide the overall winner.

# Invaluable feedback.

A new addition for 2022 will allow entrants to get feedback on every piece of work submitted into the competition.

What they found exceptional and the areas where they felt improvements could be made. Actionable, tailored insights like these will be invaluable for those keen to take their themselves to the next level.

# JUDGES.

This year's panel is composed of a cross section of 16 experts taken from across the terminal industry and around the globe. Our judges are from a wide mix of businesses, brands and cooperations which include **Ineos**, **Stolthaven Terminals**, **Kinder Morgan & Navigator Terminals** and more.

We continue to strive for a diverse mix within our judging panel, ensuring we have representatives from different nationalities, ages, genders, educations, skill sets, experiences, and knowledge bases. They receive no personal or financial benefit for their participation but are dedicated to looking at each entry in detail.
